MAJOR GLENN GUILTY

MILITARY COURT CONVICTS HIM OF ADMINISTERING WATER CURE TO FILIPINOS

SENT TO THE PRESIDENT

Secretary of War Root Forwards the Findings to Oyster Bay and Recommends Approval, but That No Other Action Be Taken—Sentence Fixed at One Month's Suspension From Duty and a Fine of Fifty Dollars.

Washington, July 23.—Secretary Root sent to the president at Oyster Bay the proceedings and findings in the courtmartial cases of Major Edwin E. Glenn, Fifth Infantry; Lieutenant Julien Gaujot, Tenth cavalry, and Lieutenant Norman E. Cook, Philippines scouts. Glenn was found guilty of administering the water cure to natives or permitting it to be done, and was sentenced to one month's suspension from duty and fined \$50. Lieutenant Cook was acquitted on a charge of giving orders to kill three Filipino prisoners. The testimony showed that he had given orders to shoot the prisoners if they attempted to escape. The Filipino scouts to whom the order was given thought it meant to shoot the prisoners.

In forwarding the case to the president the secretary recommends that the sentences and findings be approved, but that no other action be taken. It is not believed that the president, who is reviewing authority in these cases, will make any comments such as were delivered by him in the case of General Smith. It is shown in the evidence and reports that Major Glenn has performed excellent services and has done much to pacify the country in which he has been in command.

REFUGEES LOST EVERYTHING.

Population of St. Francisville, Mo., Doubled by Flood Sufferers.

Keokuk, Ia., July 23.—The center of the Mississippi flood is now at Quincy and by morning will be still farther south. The river reached the maximum at Quincy at noon and has been stationary since. The Lime Kiln levee extending north from Mayor, Ill., twenty miles north of Quincy, developed danger during the day and a large force of men are employed to watch it. That and the Hunt levee have stood the strains of the floods hitherto. The Mississippi river fell nine inches here during the last twenty-four hours. The population of the village of St. Francisville, Mo., has been nearly doubled by refugees from the flood district, who lost absolutely everything.

A trestle 150 feet long, one mile north of Alexandria on the St. Louis, Keokuk and Northwestern railway was washed out, blocking traffic on that road and the Keokuk and Western, which uses the track there. A large force is at work repairing the break, which is in the midst of the strongest current of the river torrent and is extremely difficult to handle.

CHARGES ARE WITHDRAWN.

May Yohe Does Not Wish to Prosecute Captain Strong.

New York, July 23.—The charge of grand larceny that was formally made at police headquarters by May Yohe

against former Captain Putman Bradley Strong, who has mysteriously disappeared, has been withdrawn. May Yohe's lawyer notified the police that his client wished to formally withdraw all charges against the missing captain and that the reward of \$1,000 offered for information as to his whereabouts was also withdrawn. The lawyer would only say that the charges were withdrawn for the sake of Strong's family.

MAY WIPE OUT THE TOWN.

Camden, S. C., in Danger of Destruction by Fire.

Columbia, S. C., July 23.—The town of Camden, S. C., with about 1,000 inhabitants, is reported to be in danger of complete destruction by fire. The Columbia fire department has departed on a special train for the scene of the flames. The telegraph office at Camden has been burned and there is no chance of communication.

Damage to Crops Increasing.

Springfield, Ill., July 23.—The Illinois river is still rising at Beardstown and is seventeen feet above low water mark. Damage to crops on the lowlands is increasing and has reached thousands of dollars. River View park, Beardstown, is five feet under water.

Cut His Throat With a Shoe String.

Rome, Ga., July 23.—John R. McGehee, charged with the murder of L. F. Miller, a Confederate veteran, who had been on trial in the county court for the past few days, committed suicide in his cell by cutting his throat with a sharp shoe string.

HAIL AT NEW RICHMOND, WIS.

Many Windows Broken and Crops Seriously Damaged.

New Richmond, Wis., July 23.—A hail storm passed over this city at 5:30 p. m. Many windows were broken and crops destroyed.

At the county asylum and poorhouse fifty windows were broken, and hail stones three feet deep were piled against the sides of the building. The storm was about two miles wide.

Before and After.

Single Man (to himself)—I am sure that darling little angel loves me. She takes me into her confidence and tells me all her troubles.

Same Man (some years later)—Confound it all! From morning till night and night till morning, when I'm at home, I hear nothing but tales about the servants, the butcher, the baker, the baker, the candlestick maker and all the rest of 'em!—New York Weekly.

Misunderstood.

"And we have one baby," said the meek man who was applying for board. "Will you mind it?"

"Mind it?" snapped the thin faced landlady. "Of course not. Do you think I'm a nurse?"—Chicago News.

ALL TRAFFIC MAY STOP

GENERAL STRIKE OF EMPLOYES IN LAKE CARRYING TRADE THREATENED.

AID OF TUGMEN THE OBJECT

Sixty Thousand Members of the International Longshoremen, Marine and Transport Workers' Association Ready to Walk Out—Would Be Disastrous to Lake Commerce.

Matter Rests With President Keefe.

Chicago, July 23.—In the hands of one man now rests the decision whether a tieup of the marine industries of the Great Lakes shall be decreed. This man is President D. J. Keefe of the International Longshoremen, Marine and Transport Workers' association. As a result of the strike of tugmen, which has been in progress since April, the executive body of his association empowered him to decide whether the 60,000 members engaged in loading, unloading and operating vessels on the Great Lakes shall cease work to help the tugmen in their strike against the tug trust.

If the decision be for a fight work will be suspended on all the iron ore, coal and lumber docks along the chain of lakes.

The fact that the Licensed Tugmen's Protective association was admitted to membership in the longshoremen's association while it already had a strike on its hands is taken to indicate that its officers expect help. It is said that the striking tugmen have for some time endeavored to get the dock workers mixed up in their strike.

With the whole matter in his hands for a settlement it is likely that Mr. Keefe will visit Cleveland within a week for a conference with officials of the Great Lakes Towing company. Upon the result of this meeting will largely depend the future of the strike against the company.

Should a general sympathetic strike be ordered at this time the result would be disastrous to lake commerce.

FRENCHMEN IN RIOTS.

Paris is the Scene of Many Violent Speeches and Great Disorder.

Paris, July 23.—After the distribution of prizes at a school belonging to an unauthorized congregation in the Avenue Parmentier here, violent speeches were made to the assembled crowd, denouncing the government's action in closing the establishments of unauthorized congregations.

Fighting ensued, the crowd breaking through the police cordon and shouting "Vive la Liberte!" Francois Coppee, the author and poet, who was the chief speaker, Deputy Lerolle, Gaston Herry and the Abbe Parturat were arrested.

Mm. Coppee, Lerolle and Merry were later released. Comte Urban de Maille, who was among those taken into custody, was held for examination. Further disturbances and some arrests have occurred in other places.

The determined firmness with which the government is carrying out the law against unauthorized congregations is lashing the clerical party into fury which culminated in the day's demonstration in Paris. Similar though less violent scenes accompanied the closing of the schools and the departure of teachers at other places.

FIFTY YEARS COLLEGE VENDER.

James Johnson, an Ex-Slave, Dies at Princeton, N. J.

Princeton, N. J., July 23.—James Johnson, for fifty years college vender, died here during the morning. He was born in Eastern, Md., Oct. 2, 1815, and became the slave of Teakle Wallis at the age of fifteen, but ran away and came to Princeton, where he was discovered and the sheriff came after him. After trial Johnson was turned over to the sheriff, but Miss Provost, a lineal descendant of President Witherspoon, bought his freedom for \$550. He afterward worked in the university and reimbursed Miss Provost. Johnson was a prominent character in the university for fifty years and carried the receipt from his benefactress up to the time of his death. He was a liberal subscriber to the new gymnasium fund. He will be buried Thursday from the Presbyterian church.

MINERS HOLD MEETINGS.

Anthracite Strikers Listen to Encouraging Addresses.

Wilkesbarre, Pa., July 23.—Many of the local assemblies of United Mine Workers held meetings and were addressed by delegates who attended the national convention at Indianapolis. All the speakers spoke in a very enthusiastic strain. They claim the bituminous miners were deeply interested in the outcome of the strike in the anthracite region and that they would render all the assistance they possibly could to enable the strikers to win. No definite plan for the relief of the strikers will be agreed upon until the arrival of President Mitchell. After his views are ascertained, it is said that the work of distributing relief to the families of the striking miners will be begun at once.

MISSOURI DEMOCRATS.

State Convention Makes Nominations at St. Joseph.

St. Joseph, Mo., July 23.—The state Democratic convention of Missouri met here at noon and at midnight concluded its work and adjourned sine die. John A. Knott was nominated on the first ballot for the long term as railway and warehouse commissioner at the night session. Joseph P. Rice, Moberley, one of the present members of the board, was chosen for the short term. Joseph P. Carrington of Springfield, the present superintendent of public instruction, was renominated.

Hon. William A. Rothwell of Moberley was chosen chairman of the state committee. Chairman Selbert called the convention to order and at the close of his speech introduced Dr. D. H. Shields of Marion county as temporary chairman of the convention. Dr. Shields made a brief address, referring to the long triumphant reign of Democracy in Missouri since the day of the great victory at the polls won by Silas Woodson.

The resolutions adopted declare allegiance to the principles of the Kansas City platform, especial stress being placed upon the free silver 16 to 1 plank. The government's Philippine policy is denounced. Drastic legislation is proposed prohibiting the existence of all trusts and combinations that have a tendency to destroy competition. The administration of Governor Alexander M. Dockery is endorsed. Hon. William Joel Stone, who will be the Democratic nominee to succeed George Graham Vest, addressed the convention at 11:30 p. m.

MAYOR AMES INTERVIEWED.

May Not Return to Minneapolis to Stand Trial.

Richmond, Ind., July 23.—Dr. A. A. Ames, mayor of Minneapolis, is now at West Baden, Ind., where he intends to take up his residence. In an interview he gave the understanding that his brother, Superintendent of Police Fred W. Ames, had resigned his Minneapolis post and gone to Europe. The mayor also declared that he was wondering whether it would be "worth while" to continue his fight against his enemies in the Mill City.

He admitted that members of the police force had accepted bribes and explained this with the assertion that all police departments in cities of the size of Minneapolis were more or less corrupt.

TEN YEARS OF LITIGATION.

Nebraska Supreme Court Decides Omaha Police Board Case.

Lincoln, Neb., July 23.—The supreme court has handed down a decision declaring that there is not a legally appointed fire and police board in Omaha and that it is the duty of the governor to appoint one. It is further stated that the decision is sufficient and that no peremptory writ directing the governor to perform his duty should be required.

The litigation in the Omaha police board case has been protracted, lasting over a period of ten years, and begun with the rendering of a decision declaring the mayor and city council to be the only body with power to appoint a fire and police board.

SIXTY-ONE BODIES RECOVERED.

Victims of German Excursion Boat Disaster Placed at 104.

Hamburg, July 23.—The Primus has been partially raised and brought nearer shore. The total number of missing is now placed at 104. Sixty-one bodies have been recovered.

Inquiry into the circumstances of the disaster shows that there is a great lack of life-saving apparatus on the Elbe excursion steamers. The Primus is known to have had on board only six life belts and a single boat. The steamer Dolphin, which came up later with four hundred passengers also had only one boat, capable of carrying seven persons.

ABSORBED BY ARMOUR.

Secures Hammond Packing Company and C. H. Hammond Co.

Chicago, July 23.—According to a report current here that seemed to be well substantiated Armour & Co. have absorbed the Hammond Packing company and the G. H. Hammond Co. The G. H. Hammond Co. has \$3,600,000 of stock and \$550,000 of bonds; the Hammond Packing company has \$1,500,000 capital stock. The plants of the G. H. Hammond Co. are at Hammond and South Chicago and the Hammond Packing company's establishment is at St. Joseph, Mo.

Greek Catholics Will Organize.

Scranton, Pa., July 23.—Twenty-five priests and seventy laymen representing the Greek Catholic churches of the United States and Canada met here during the day with their newly appointed vicar general, Rev. Andrew Hodooby, and discussed a proposed constitution and bylaws. Final action was postponed until a second convention to be held in Hazleton Oct. 20, 1902.

Italians Will Displace Japs.

Havre, Mont., July 23.—A report has reached the railroad officials here that the Great Northern will replace its Japanese workmen with Italians. The Great Northern railway employs over 1,000 Japanese on its lines in Montana. An interpreter is now at Havre making arrangements for the accommodation of a crew of about 100 Italians. The men will receive 16 cents an hour.

Fair tonight and Thursday, except possible occasional thunder showers.

Two boys, one at Aitkin and one at Crookston, have been killed during the week by guns that were supposed not to be loaded. These are the weapons that invariably do the damage.

An Illinois paper is to publish the entire Bible in its columns as a serial and estimates that it will take 50 years to complete the work. It is supposed that the work will be news in the vicinity of Pana, where the paper is published.

Ir John Lind wants to try it be can have the democratic nomination for congress against Loren Fletcher. No other democrat seems to want the game and the party has fallen into the habit of trying to force the "impossible" thing onto John's shoulders.

It is published that W. F. Street, the Bemidji statesman, will make a canvass for the state senate on the merger platform, that he declares himself as against Gov. Van Sant's action and favors Jim Hill's merger plan. Friend Street must be figuring that his opponent will be elected any how, and that the platform doesn't count.

THE St. Cloud Journal-Press thinks the Benton County Democrat has missed fire when it says it will advocate the democracy of Jefferson, "as it will be out of sympathy with both of the democratic factions of today if it lives up to its standard, as Jefferson was an expansionist, a believer in sound currency, and was a friend of American industries. In these days he would be a pretty good republican."

The Weather Thus Far.

The summer of 1902 to date has not been extraordinary wet, nor has it been unusually cold. July has given the season a rather bad record but taken with June the weather has not been unusual, and even July for the first twenty-one days, considered by itself, has nothing freaky about it.

Last summer the precipitation for June and July, as shown by the records in the office of Section Director Outram, of Minneapolis, was 7.89 inches. To date this year it has been 7.81 inches. June showed a deficiency of 1.98 inches under the record for twelve years and July shows an excess of 1.81 inches over the record for eleven years.

In temperature July has been low, but the summer record has a deficiency in mean temperature of only 6 degrees below that of last summer. Of this June showed a deficiency of 4 degrees and July to date has 2 degrees.

The month of July thus far has had a rain record of ten days out of twenty-one, with omens for the remaining ten. Every July for eleven years has exceeded the record of this month in temperature except 1891, 1895 and 1900.

Resolutions.

The following resolutions were passed at the summer school this morning by the faculty and teachers present:

WHEREAS, By the will of Providence, the hand of death has fallen suddenly upon Mr. William Jacobs, who, though a stranger to many of us, was united by paternal ties to a member of our school, and,

WHEREAS, This sad affliction by the loss of her father removed from our number one of the most faithful members of the summer school; therefore be it.

RESOLVED, That we extend to Miss Ida Jacobs our sincerest sympathy in this hour of her deep affliction.

RESOLVED, That the loss of a loving, kind neighbor is a common loss and we join our sorrow with those who gather within the family circle on the departure of him who can join them no more.

RESOLVED, That a copy of these resolutions, as expressions of our sympathy, be presented to Miss Ida Jacobs and copies sent to the city press.

Figuratively Speaking.

"Well," said young Graftsky, "I've soldiered half of the afternoon, and I guess I might as well round it out by loafing the other half."

"Yes," said his friend, J. Wise, Jr., "but the rounding out will be a lot easier than squaring yourself with the boss afterward."—Los Angeles Herald.

The Home Rulers.

"This is a republic and therefore has no national heir," replied the native.—Pittsburg Chronicle-Telegraph.

PEOPLE OF THE DAY

The King's Surgeon.

Among the famous surgeons of England is Sir Frederick Treves. It was he who performed the operation on King Edward, though associated with him were several of the most eminent physicians and surgeons of Great Britain. Sir Frederick Treves is a fellow

of the Royal College of Surgeons and for many years has been a distinguished operator and surgeon in London. He was one of the many numerous medical men who went to South Africa during the progress of the recent war for the purpose of enlarging his clinical experience. For more than twenty years he has been recognized as an authority on abdominal operations.

Buffalo Bill On Duty.

Among the tens of thousands of persons who saw Buffalo Bill on horseback at the wild west show less than a hundred probably know what he looks like out of the showman's arena, says the Philadelphia Press. William F. Cody is a very tall man, about 6 feet 3 inches, broad of shoulder, deep of chest and lithe of limb. He has a complexion like a healthy schoolgirl, eyes keen as a hawk's and a tongue like a baby's. Except for his whitening hair and the faintest suspicion of crow's feet around the eyelids no one would imagine that he is fifty-seven years old.

In dress Buffalo Bill is most fastidious. The close fitting buckskin riding breeches and embroidered hunting shirt that he wears in the ring are indicative of his carefulness in general attire. He wears usually a black cut-away coat of rough texture cloth, a double breasted fancy waistcoat of modest pattern and trousers with a thin white stripe that add to the effectiveness of his height. He is fond of jewels and has enough of them in the shape of gifts from potentates in hands he has visited to make a creditable showing. He is seldom seen without a magnificent scarfpin presented to him by the Grand Duke Alexis after a hunting trip in the northwest. The only indication of the prairie scout that appears in his everyday dress is the slouch hat, with an unusually broad brim.

Nominated For Governor.

At the recent state convention of the Democratic party of Pennsylvania ex-Governor Robert E. Pattison was nominated for governor. Mr. Pattison has twice been elected governor of Pennsylvania, in 1881 and 1890, and enjoys the distinction of being the only Democrat elected to that office since the war of the rebellion.

Mr. Pattison was born in Maryland and is fifty-one years of age. He was

ROBERT E. PATTISON.

educated in Philadelphia, which city has been his home since boyhood. He studied law and was admitted to the bar in 1872. He entered politics soon after taking up the practice of law and was elected city controller of Philadelphia in 1877 and was re-elected in 1880, but resigned to become governor, to which position he was elected, as stated above, in 1881, at the age of thirty-one.

An Revolt of the Cambons.

Jules Cambon, the French ambassador, with his wife, sailed the other day from New York for France. The ambassador commented on the good feeling existing between the two republics. Mme. Cambon, who is a comparative stranger in America, said, "What struck me most was the independent ways of the American women."

Colonel Gillmore's Promotion.

Colonel Quincy O. M. Gillmore has been appointed by Governor Murphy of New Jersey brigadier general, succeeding the late General Cooper in command of the Second Brigade of the New Jersey national guard. Colonel Gillmore assumes command at the Sea Girt encampment.

CARDINAL LEDOCHOWSKI DEAD.

Prefect of the Congregation of the Propaganda Passes Away.

Rome, July 23.—Cardinal Ledochowski, prefect of the Congregation of the Propaganda of the Roman Catholic church, died during the morning after a long illness.

Cardinal Ledochowski was born at York, Oct. 29, 1822, and was the descendant of an illustrious Polish family.

The pope, on learning of the death of the cardinal, was greatly distressed and exclaimed:

"A valiant fighter for the church and religion has gone. His memory be blessed."

The pontiff then knelt and prayed for the repose of the cardinal's soul.

With Cardinal Ledochowski's death Cardinals San Stefano and Parocchi are the only surviving cardinals created by Pope Pius IX.

Cardinal Ledochowski was out driving as usual Monday evening. When his valet entered his room at 9 o'clock Tuesday morning the cardinal had a sudden paralytic stroke and succumbed.

It is thought that Cardinal Vincenz Vannutelli, bishop of Palestina and archpriest of the Liberian Basilica, will be appointed prefect of the Congregation of the Propaganda in succession to Cardinal Ledochowski.

SATOLLI MENTIONED.

May Succeed to Prefecture of Congregation of the Propaganda.

Rome, July 23.—The candidates for the post made vacant by the death of Cardinal Ledochowski are equal in number to the hours which have elapsed since the cardinal's decease. In addition to Cardinal Vannutelli, Cardinal Francis Satolli, formerly apostolic delegate to the United States, is prominently mentioned as a candidate for the prefecture of the congregation of the propaganda. He is reputed to be a special protegee of the pontiff, whose power of appointing is absolute. It is pointed out that Cardinal Satolli's thorough knowledge of American affairs peculiarly fits him for the prefecture, the United States being the most important country with which the propaganda has to deal.

WITHHELD HIS DECISION.

Oklahoma's Governor in a Quandary Over a Murder Case.

Guthrie, Okla., July 23.—Governor Ferguson was forced to withhold his decision in the appeal for commutation of sentence of death imposed upon Samuel Bruner, a half breed Seminole negro boy, accused of killing a white boy, Martin West, near Violet Springs, Okla., on Dec. 24 last. The governor was notified that if the sentence was commuted there was great danger of a mob taking Bruner from the Tecumseh jail and lynching him, and if not commuted that a party of Bruner's friends are ready to cross the Seminole line into Oklahoma and liberate him.

The governor sent a sealed verdict to the Potawatomi county sheriff and Bruner will be removed before either party can reach him. The general opinion is that the sentence has been commuted. After the murder of West, a mob, failing to find young Bruner, lynched his younger brother in the Seminole nation.

FORAKER FAVORS ROOSEVELT.

Thinks Him the Only Man for the Presidential Nomination in 1904.

Cincinnati, July 23.—Senator Foraker, in the course of an interview on his return home, was asked:

"Are you correctly quoted as to the Republican candidate of 1904, namely, that nobody is seriously thought of except President Roosevelt?"

"Yes, the statement published is correct and the fact is as there stated. Roosevelt is the only man seriously thought of by the great masses of the people. There are a few flickering flames that some ambitious partisans are trying to fan into a blaze, but they cannot make them burn steadily and they will all go out in due time, extinguished by the fire damp of American politics."

BY LAND AND SEA.

Consular Corps at Cape Haytien Notified of Proposed Attack.

Cape Haytien, Hayti, July 23.—The local authorities here have notified the consular corps that Cape Haytien is to be attacked by land and sea and that they cannot guarantee the safety of foreigners.

The consuls have requested that the French cruiser D'Assas, now at Port au Prince, be sent here but the French minister there has replied that the situation at Port au Prince does not permit the sending of the cruiser to Cape Haytien.

Contributes to Conscience Fund.

Washington, July 23.—One of the most unusual contributions to the conscience fund ever chronicled in the history of the treasury department was received during the day. Some possessor of an uneasy conscience sent to the department a \$20 gold certificate in sections. One part was mailed to the collector of customs in New York and the other from Jersey City to the treasury department. Accompanying this part of the bill was a letter signed "Conscientia."

For Three New Lake Ships.

Duluth, July 23.—Contracts have been let to the American Ship Building company for the construction of three new ships aggregating a cost of \$840,000. One contract was from G. A. Tomlinson for a duplicate of the monster steamer Sultana. The other two orders were placed by Commodore A. B. Wolvin for the Provident Steamship company. Each of these will be of steel 400 feet over all.

Will Test Oleomargarine Law.

Columbus, O., July 23.—At a meeting of butterine manufacturers held in this city a plan of action was decided upon to test the constitutionality of the recently enacted oleomargarine law. A New York firm of constitutional lawyers has been interested with the case. The contention will be that the act is class legislation.

For Three New Lake Ships.

Duluth, July 23.—Contracts have been let to the American Ship Building company for the construction of three new ships aggregating a cost of \$340,000. One contract was from G. A. Tomlinson for a duplicate of the monster steamer Sultana. The other two orders were placed by Commodore A. B. Wolvin for the Provident Steamship company. Each of these will be of steel 400 feet over all.

Will Test Oleomargarine Law.

Columbus, O., July 23.—At a meeting of butterine manufacturers held in this city a plan of action was decided upon to test the constitutionality of the recently enacted oleomargarine law. A New York firm of constitutional lawyers has been interested with the case. The contention will be that the act is class legislation.

BUILDING COULD NOT BE REPAIRED

Legally says Judge McClenahan in the Case of City Against J. F. McGinnis.

CITY'S DEMURRER IS SUSTAINED.

The Plaintiffs Given Ten Days in Which to Amend the Complaint, However.

Judge McClenahan has rendered his decision in the case of J. F. McGinnis against the city and for the time being at least the city has won out.

It will be remembered that Mr. McGinnis shortly after the fire on Seventh street made application to the city council for a permit to repair the old frame building that was occupied by William Costello as a saloon. The permit was not granted, but Mr. McGinnis secured legal assistance and at once started to repair the building regardless. The men who went to work were arrested by the city officials and on their hearing they were discharged.

An action was then brought by Mr. McGinnis restraining the mayor or city officials from interfering with the work in progress on the building. To this City Attorney Crowell demurred. Judge McClenahan this afternoon sustained the demurrer on the ground that the proceedings never showed that a permit had been issued by the council for the repair of the building. The judge also decides a rather interesting point in this relation which has not been brought out before. Even though a building inside the fire limits is damaged less than 50 per cent, a permit must be secured from the council to have the same repaired.

The court has granted the plaintiffs ten days in which to file an amendment to the complaint and they may yet be able to set up a cause for action.

HON JOHN C. CHASE.

Will be a Guest in the City on July 29 When he will Deliver a Lecture at the Opera House.

Hon John C. Chase, of Haverhill, Mass., will be in Brainerd, July 29, and he will give a lecture at the opera house under the auspices of the Trades and Labor Assembly, on the subject, "Organized Labor against Organized Capital."

Mr. Chase was mayor of his home town for two terms and during that time there was not a single strike in Haverhill, because the capitalists knew that a working-class mayor would not use police against workmen. When Chase became mayor the town was poorly organized, and the few unions almost dead. Chase revived these unions, helped to organize fourteen crafts, and Haverhill is now one of the strongest union towns in the country. During Chase's term organized labor got anything it wanted—the capitalists wouldn't risk a fight.

Chase has been a trade-unionist since a boy of 16. He is a shoemaker by occupation.

He is a strong supporter and worker for organized labor.

He has a simple, direct and honest way of talking that cheers the despondent, convinces the doubtful and shames the weak hearted. While a strong tradeunionist, nevertheless Chase believes workmen should not own the earth.

COUNTY BOARD IN SESSION.

Commissioners Convene as Board of Equalization at the Court House—

Will be Thorough.

The members of the board of county commissioners are in session at the court house. They have convened as a board of equalization and are there to hear remonstrances from the taxpayers of the county. They will also raise or lower assessments as they see fit throughout the county. Some big changes are anticipated in some quarters.

YOUNG RUNAWAYS ARRESTED.

Chief Nelson Gathered in a Quartette of Them Yesterday Afternoon and Lodged them in Jail.

Yesterday afternoon late Chief William Nelson placed under arrest in this city four youngsters by the names of Joseph McGilles, David Patton, John McCormick and Andrew Haggarty. The boys were placed under arrest on a telegram from West Superior, their home. It seems that they had run away and their parents had notified the chief of police of that city who notified the chief of this city.

Later in the day a telegram was received from the father of the McGilles boy stating that he had wired a ticket for his son to the agent of the Northern Pacific in this city, so this young lad was sent home this morning. After some wiring to ascertain what the parents of the other boys wanted to do, and ascertaining that they would send no tickets for the boys to return home, Chief Nelson let them go.

Weighty Document.

George H. Hitchcock, deputy clerk of the United States district court, is about to forward to William L. Parsons, referee in bankruptcy at Fergus Falls, the most portentous document he has had occasion to handle in government service, says the Minneapolis Journal. It is encased in a long, heavily made envelope labeled across the top "On His Majesty's Service," and in a lower corner, "Law Courts of Scotland." Within is a similar envelope labeled in a like manner with a description of contents. This is sealed with magnificent red wax seal containing an imprint in Latin. The inner document it is not permitted to Mr. Hitchcock to open as this solemn duty falls to the referee at Fergus Falls.

The documents pertain to the bankruptcy case of Nehemiah P. Clarke, of St. Cloud.

Last spring, when the day was at hand for the final hearing in the Clarke case by Judge Lochren and the discharge of the bankrupt, a principal creditor, through Mortimer H. Boutelle and Nathan H. Chase, objected, making serious charges as to the validity of motive in the proceedings which had lasted some seven years. The discharge was postponed and time given for the producing of testimony. One important witness, Andrew Montgomery, lived in Scotland, and a commission for taking his testimony was ordered.

According to the accompanying letter of J. A. Fergus, clerk of the commission, the document is the report of Commissioner W. E. Mackintosh, "the relative productions made by the witness and also the letters Rogatory to the Court."

ON THE DIAMOND.

The Waseca team arrived in the city this afternoon from the south and are ready for the game tonight at Athletic park with the locals. It will be a great game and one that will be greatly enjoyed by all. Dr. Watkins will be in the box for the locals.

Aitkin has strengthened up materially and the game to be played with the team of that city on Friday evening in this city should be a good one. Williamson will probably be on the slab for the Aitkin team.

The Great Northern base ball team of St. Paul, will play a game in this city Sunday with the locals. This team is one of the strongest in the Twin Cities and they will make a good match for the locals. "Bobby" Hill who at one time played with Brainerd when she had a good team in 1896 is playing with the G. N. team in his old position at third base and he will doubtless be greeted with a few glad hands from his old time friends. The game will be called at 3:30 in the afternoon and it will be one of the best played this summer.

MAKE MOTION FOR NEW TRIAL.

Claimed that Juryman Merrell was Intimidated in the Jury Room with Violence.

There is likely to be another seance in connection with the case of A. L. Cole & Co. vs. Bonness & Co., which was the last case tried at the recent term of the district court. It seems that Juryman Merrell claims that he was choked in the jury room because he did not agree with another one of the men on the panel. The defendants in the suit have heard of this and the matter will in all probability have another airing in the court. The matter would have to come up on a motion for a new trial on the ground that one of the juryman was intimidated.

Judge McClenahan has not been advised as yet as to any procedure, however.

The agricultural report of our county places Deerwood first in number of farms, with an average of less than four acres under cultivation. This would cause a Dakotan to smile, who must have at least 100 acres to make a living. The natural resources of our county are that much ahead of Dakota. The people of Deerwood are prosperous, and the financial condition of that town is O. K.

The Misses McCullough Entertain Last Night in a novel and Grotesque Manner at Their Home.

To a casual visitor in the city last night the sounds of revelry would remind him of some great surprising but the noise and chatter was none other than the playful-gee that emanated from the throats of some 75 young society folk who were being entertained by the Misses McCullough in a rather unique manner.

The guests were supposed to be robed in some grotesque fashion, representing country life and they certainly planned well to fulfill every requirement, for the costumes were certainly amusing in the extreme.

The young people paraded the streets and made Rome howl for a time, and finally repaired to the beautiful McCullough home where refreshments were served in the house, and a band composed of several young maidens playing on combs stationed on a platform in the receiving room, discoursed "sweet" music, giving such numbers as "when Raben Comes to Town" and "A Hot Time" The decorations about the place were done in hay and oats. The parade down town was also by the "band". The party was given in honor of Miss Hael Harper, of Chicago.

Big Show Tomorrow.

The Great Buffalo and Wild West Shows will exhibit at Brainerd tomorrow afternoon and evening.

The splendidly realistic manner in which the most striking incidents of frontier life are presented by this organization, is due primarily to the fact that all are produced by men to whom such incidents and episodes have been familiar in real life.

The quality of absolute truthfulness of character and exactness of detail inheres in all the widely diverse features combined to make up the Wild West Shows complete and interesting entertainment.

This is the largest, grandest and most complete amusement enterprise ever placed before the American people and is in every detail historically correct and above criticism.

The management cordially invites owners of wild and vicious horses to bring them to the show grounds and have the peerless riders ride them.

The Big Show will exhibit in Mahlum's lot just west of of the Fair Grounds on Thursday, July 24, afternoon and evening, rain or shine, all seats protected from sun or rain.

ONE FORGETS HAVE NO DOUBT heard of the precious jewels which the toad carries in his brain box, and so called toadstones, which were in reality the teeth of fossil fish, were formerly worn in finger rings as a protection against poison.

It was thought that the best stones were those voluntarily ejected by the living toads; but, as the latter were not addicted to freely giving up their treasures in that way, it was necessary to procure the coveted articles by other means, and the recognized method was to decapitate the hapless batrachian at the instant he swallows his breath. The feat naturally demanded considerable celerity, such as could only be acquired by constant practice, and it is not reasonable, therefore, to assume that, although the endeavors to gain possession of the jewels were perhaps numerous, they must have invariably been unsatisfactory, especially to the toads.

A REPUTATION.

How it was Made and Retained in Brainerd.

A good reputation is not easily earned, and it was only by hard consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Brainerd residents has rendered invaluable service to the community. Read what this citizen says:

Mr. R. D. Ransom, of Third Ave., East Brainerd, fireman at the Brainerd Lumber Co., says: "For as long as twelve or fourteen years I was a sufferer from kidney ailment. My back hurt me awfully, I could stoop but when I attempted to rise, severe pain caught me in the loins. Often in bed I could not change my position and when morning came I had to be helped out of bed. The kidney secretions were of a very unhealthy color and were otherwise irregular. I commenced using Doan's Kidney Pills and one box did me so much good that I took another. The treatment cured me."

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

The management cordially invites owners of wild and vicious horses to bring them to the show grounds and have the peerless riders ride them. The Big Show will exhibit in Mahlum's lot just west of the Fair Grounds on Thursday, July 24, afternoon and evening, rain or shine, all seats protected from sun or rain.

MOST readers have no doubt heard of the precious jewels which the toad carries in his brain box, and so called toadstones, which were in reality the teeth of fossil fish, were formerly worn in finger rings as a protection against poison.

It was thought that the best stones were those voluntarily ejected by the living toads; but, as the latter were not addicted to freely giving up their treasures in that way, it was necessary to procure the coveted articles by other means, and the recognized method was to decapitate the hapless batrachian at the instant he swallows his breath. The feat naturally demanded considerable celerity, such as could only be acquired by constant practice, and it is not reasonable, therefore, to assume that, although the endeavors to gain possession of the jewels were perhaps numerous, they must have invariably been unsatisfactory, especially to the toads.

A REPUTATION.

How it was Made and Retained in Brainerd.

A good reputation is not easily earned, and it was only by hard consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Brainerd residents has rendered invaluable service to the community. Read what this citizen says:

Mr. R. D. Ransom, of Third Ave., East Brainerd, fireman at the Brainerd Lumber Co., says: "For as long as twelve or fourteen years I was a sufferer from kidney ailment. My back hurt me awfully; I could stoop but when I attempted to rise, severe pain caught me in the loins. Often in bed I could not change my position and when morning came I had to be helped out of bed. The kidney secretions were of a very unhealthy color and were otherwise irregular. I commenced using Doan's Kidney Pills and one box did me so much good that I took another. The treatment cured me."

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

ASHLEY COCKE PAYS EXTREME PENALTY FOR MURDER AT GREENVILLE, MISS.

HIS COMPANION IS SILENT

Before the Execution Both Men Were
Defiant and Violently Abused Every-
one Around—Cocke Dies Loudly
Boasting and Bitterly Cursing—Six
Thousand People Witness the Exe-
cution—Story of the Crime.

Greenville, Miss., July 23.—With curses on his lips, with eyes bloodshot and with the expressed wish that the people of Greenville perish in the fires of hell, Ashley Cocke died here. With him, but silently, Tom Lauderdale also met his end. Both were convicted of the murder of Engineer G. M. Wray and were hanged from the same gallows and the swing of a double trap sent both men to their doom. The fatal trigger was snapped at 11:27 a. m. At 11:41 Cocke was pronounced dead. At 11:43 the pulse of Lauderdale ceased to beat. Both bodies were cut down ten minutes later and turned over to their respective families. Cocke died boasting that he would be in hell in a few minutes, and damning everything and everybody. He said that those who had planned his murder would meet their end and that \$11,000 had been deposited in a bank, \$1,000 of which would be paid for the death of each of the eleven men who prosecuted him. The execution was witnessed by 6,000 people.

Before the time for the execution, both men appeared defiant, Cocke especially being very abusive to every- one around him, while both cursed continually. After the death warrant had been read to the men in their cells, Cocke yelled through the win- dows to the great crowd which had gathered outside to witness the exe- cution:

"D— you, don't be impatient; we are coming."

When the sheriff and the doomed men mounted the scaffold Cocke again began to berate those about him, and, turning to the crowd, said:

"It's all a plot to kill me; d— you all, d— everybody. I'm going to die like a man."

Says He Will Be Revenged.

"I am killed for nothing, but I am the bravest man in the state of Missis- sippi. There is \$11,000 waiting for anyone who will kill the eleven men who made this plot. I will be revenged, for every one of this eleven will be killed, and no questions will be asked. They have murdered me, but revenge, revenge, revenge."

Before he could say more the black caps were adjusted.

"Are you both ready?" asked the sheriff.

"Yes," yelled Cocke through the folds of black. "D— you people of Greenville; go to h—, all of you."

The trap was sprung and the men dropped into space.

The crime for which Ashley Cocke and Tom Lauderdale paid the death penalty on the gallows was committed in a Yazoo and Mississippi Valley rail- road train about 3 o'clock on the morn- ing of Dec. 20, 1901, near Elizabeth. Ashley Cocke, Tom Lauderdale, Will Blackburn and G. M. Phipps boarded the northbound passenger train. G. M. Wray, an engineer, was a passenger on the car entered by Cocke and his party. Cocke and his companions were more or less under the influence of liquor. Phipps fell against Wray, who was asleep on a seat in the coach. Wray asked Phipps what he meant and the reply came from Cocke that it meant that he (Wray) must leave the coach. As Wray started to walk out Cocke, Lauderdale and Blackburn be- gan shooting at him and he fell dead in the aisle of the car. Cocke and Lauderdale were tried together, con- victed and sentenced to be hanged March 31, 1902. The supreme court reviewed the case of Cocke and Lau- derdale, affirming the decision of the lower court and fixing Tuesday, July 22, as the day for the execution. Gov- ernor Longino refused to interfere with the sentence. Blackburn was given a life sentence on account of his previous good character.

LAND SALES BREAKS RECORD.

Northern Pacific Disposes of 1,500,000 Acres in Western District.

St. Paul, July 23.—The report of land sales for the year ended June 30, for the Western district, comprising Washington, Idaho and Oregon, has been completed. It shows an aggregate of 1,495,954 acres. These figures exceed last year's sales by more than half a million acres, and they are far in excess of any previous year.

The greater part of the agricultural lands sold are in Eastern Washington, although the demand has been general throughout that state. The recent sale of 18,000 acres of timber lands in Spo- kane and Stevens counties in Washing- ton to Western mill companies has about closed out the company's hold- ings in that section.

The report for the Eastern land division is not yet ready. The sales have been good.

W. K. Vanderbilt, Jr. Injured.

Paris, July 23.—As W. K. Vander- bilt, Jr., was driving a small automo- bile along the Champs Elysees near St. Armand, behind a larger machine, he collided with a market wagon, driven by a woman, and both were upset. Mr. Vanderbilt was slightly injured on the leg and arm and the woman's face was scratched. The automobile was badly damaged.

Wisconsin Democrats Meet Sept. 3.
Waukesha, Wis., July 23.—The Democratic state central committee at a meeting here decided to hold the state convention in Milwaukee on Sept. 3.

READY FOR FRED'S BATTLE.

Jeffries and Fitzsimmons Finish Their Hard Training.

San Francisco, July 23.—Jeffries finished his hard training during the day. He boxed eight fast rounds be- fore a large gathering of business men at Oakland. During the bout Jim nearly knocked Kennedy out, and the latter retaliated by landing a heavy right on Jeffries' nose, drawing blood. Jeffries instructed his trainers to give him a battle and they did so to the best of their ability. Eddie Graney, the referee of the big contest, was in the ring and gave a practical demon- stration of how he would act toward the contestants. He refrained from going between the fighters, but or- dered them to break, and they did so.

Jeffries will do light work for the next few days. He will take no chances of injuring his hands and will therefore refrain from boxing.

Fitzsimmons took a short jaunt through the park in the morning and boxed at the Olympic club in the afternoon. He sparred with two clever amateurs and wound up by going three fast rounds with Hank Griffin. Fitzsimmons will confine his work for the next few days to light gymnastic work. Both men are ready to enter the ring.

Engineer and Fireman Killed.

Washington, Ind., July 23.—A Balti- more and Ohio freight locomotive ex- ploded near Olney, Ill., during the af- ternoon. Engineer Conaty of Wash- ington, Ind., was instantly killed and Fireman Michael Muster, also of Washington, was fatally injured. Fif- teen cars were wrecked and traffic was badly blocked.

Chinese Immigration to Canada.

Ottawa, Ont., July 23.—The 1903 revenue from Chinese immigrants to Canada for the year ending June 30, amounts to \$364,972, compared with \$178,704 during the previous year. The poll tax last year was increased from \$50 to \$100. The number who paid the tax was 3,525, compared with 2,518 in 1901.

Sultan's Gift to Emperor William.

Constantinople, July 23.—In the course of an audience which he grant- ed to the German charge d'affaires, the sultan presented to Emperor Wil- liam, through the charge, the ruined fortress of Kalaat Sherkat, on the River Tigris, which has long been de- sired by German assyriologists for ex- cavation.

TELEGRAPHIC BREVITIES.

Captain B. D. Wood, a prominent Pittsburg coal man and former pres- ident of the national board of trans- portation, died at New Orleans.

Steve West, colored, was hanged in the jail yard at Vicksburg, Miss., for the murder of Minnie Fisher, a nine- teen-year-old negro girl, a year ago.

The proving of the will of William Lidderdale, late governor of the Bank of England, who died last month, shows that his entire estate amounts to only £1,000.

The death is announced of the Most Rev. Thomas W. Croke, archbishop of the archdiocese of Cashel, Ireland, and administrator of Enly. He was born in 1824 and consecrated in 1870.

Arthur J. Caton, president of the Chicago club and prominently iden- tified with all the movements of Chicago society, was severely injured in a collision between an Indiana avenue electric car and a carriage in which he was riding.

FREE SPEECH UPHELD

Gompers' Comment on the Decision of Missouri's Supreme Court.

One swallow does not make a sum- mer, and half a dozen sound and just judicial decisions in cases involving la- bor's fundamental rights do not war- rant overconfidence or jubilation, but it is distinctly gratifying and encour- aging to note signs of judicial progress.

I would direct attention to a signifi- cant and far-reaching decision rendered by the supreme court of Missouri.

It appears that the United Garment Workers of America and some labor officials at St. Louis had instituted a boycott against a clothing firm doing business in the city named. Circulars had been published and distributed to the public asking it, for reasons set forth, to withhold patronage from the firm in question. The boycotted com- pany had applied for an injunction to restrain the unionists and their friends from issuing and scattering the cir- culars. The court of the first instance denied the application, and the supreme court affirmed the judgment.

It was not claimed by the company that the boycott circulars contained libelous, false or malicious statements. Had that been alleged and proved, a different question would have been presented. All that was asserted was that the circulars injured the business of the complainant, and it was as- sumed that the courts had the power and were bound under the general law as to property rights to prevent the continuance of such injury.

"No," says the supreme court; "we have no such right or power. The constitution of Missouri guaranteed the freedom of speech and publication on all subjects and made those who abused such freedom responsible at law for such abuse. That is, if the abuse was proved, damages might be secured. But to restrain the publica- tion of boycotting circulars would be a violation of the right of free speech."

We do not see how this reasoning can be successfully challenged. To say, as some do, that the decision legalizes systematic libel is absurd. There are laws on the statute books of Mis- souri against libel, and the boycotted firm is free to avail itself of the rights under the law.

When a boycott circular contains li- belous statements, the offense consists in the libel and not in the boycotting. Where the advice or the appeal of the boycotters is based upon true allega- tions no charge of libel will lie. An injury to property may result, but this injury is the result of the actions of the boycotted party. It is not to be supposed that the public will boycott a man who has done nothing wrong or unjust.

However, it should be recognized that the Missouri supreme court did not de- cide that boycotting was legal. It simply decided that the constitutional right of free speech was a limitation upon the remedy of the injunction writ. In a number of cases the courts have enjoined the publication of boy- cotting circulars, but the question of free speech, so far as I am aware, was not raised in any of these cases. The Missouri decision establishes an im- portant precedent and opens to organ- ized labor a new line of defense against the abuse of the injunction, for in most of the states of the Union there are constitutional provisions securing the right of free speech and free publi- cation.—Samuel Gompers.

Mayor Stands by Union.

A Des Moines (Ia.) dispatch says: Mayor Brenton of Des Moines en- courages telephone girls who are out on a strike and has addressed them fre- quently. He made the rounds of the telephone offices with a committee from the Trades and Labor assembly and endeavored to persuade the man- agers to recognize the union. He stated that he would call a meeting of the council if necessary to consider the ad- visability of enforcing more rigidly the provisions of the Mutual telephone franchise. The Bell has no franchise, and its right to the streets is now pend- ing in the courts.

"I hope that the labor unions of Des Moines will paralyze the whole indus- try if it is necessary in order that these girls may win," said Mayor Brenton. "If they do not, they ought to be ashamed of themselves. I believe that a sympathetic strike is the only thing that will bring the managers to time, and, if it is necessary, I hope that it will come and come soon."

Camp For Strikers.

The metal polishers, buffers, platers and brass workers of Cleveland, who are on strike for a nine hour workday, have a novel plan in view. It is to sup- ply the strikers with tents and equip- ment for a camp at some place near the city. A large number of men have already declared themselves as ready to go into camp at any time. President E. J. Lynch of the national organiza- tion is behind the movement. The camp is to be conducted on the co-operative plan, and the balance of the strike pay not used in the expenses of the camp will go to the men. The different locals affiliated with the brass workers' or- ganization voted to give \$2 per week to each man on strike in addition to his strike pay.

Cut Wages, Cut Shovel.

Two gangs of navvies, one German and the other Italian, were engaged working on a railway in Germany re- cently. The contractor announced that he intended to reduce wages, where- upon the Germans struck work. The Italians went on working, but carried out a novel and effective scheme to get even with the bosses. They simply cut an inch off the end of their shovels. When this was discovered the ring- leader was asked for an explanation and said: "Not so much pay, not lift so much earth. So much longer last work."

In the mountains of Tennessee, a stranger came upon a man who was shoveling coal upon a wooden sieve. Upon inquiry how on earth he got such a curious thing the old man replied:

"Stranger, I don't think you'll believe me if I tell you."

"Oh, yes, certainly," said the man; "I will believe you."

"Waal," said the mountaineer, "it war this way: About five years ago I lived down on the side of the mountain with woodpeckers and other kind o' birds is powerful thick. That 'ar thing'—pointing to the sieve—"war my door to my cabin. It 'ud mock any bird that flies. I'd jest sit thar some summer evenin' and jest move it, and every bird came that war imitated."

"Howsumever, one day I left my cabin to go huntin' and went preamb- blin' down the mountain. Waal, some wind come along and made that 'ar door imitate a woodpecker. First one come and then a whole pile o' the critters. They lit in on the door, and when I come it war jest like you see it."

The man thanked him and moved on. "I declar," said the mountaineer, "I don't b'lieve he thought I war tellin' the truth." And he resumed shovel- ing coal.—New York Herald.

Thoughtless, Selfish.

Thoughtlessness of others is nothing more than downright selfishness, which is the curse of humanity. The man who on leaving an elevated train pauses at the head of the stairs to light his cigar is selfish. He incom- modes all who are behind him. The woman who insists on passing up or down the stairs ahead of the eager crowd, slowly, indifferent to the haste of others, must be an awful thing at home. He who pauses to tie his shoe regardless of the interruption of traffic is a brute in his family. I see all these things a dozen times a day and wonder what kind of lives such persons lead in the family circle. One of the common evidences of thoughtlessness is seen in those who stand in the middle of the sidewalk to chat while multitudes are forced to deflect or make an offset in order to pass them. The more I see of men the greater is my respect for asses, dogs and mules.—New York Press.
